

Report on the GCC Exhibition for Training & Education 2024

The GCC Exhibition for Training and Education proved to be an invaluable resource for students exploring higher education options. It provided a unique platform for students to discover various educational pathways, learn about diverse academic programs, engage directly with representatives from top institutions, and make well-informed decisions about their future studies. In line with its commitment to guiding students toward suitable career paths and higher education opportunities, Sunrise English Private School's CU Guidance Counseling Department organized a visit for its Grade 12 students to attend the GCC Exhibition for Training and Education, held on September 25 and 26, 2024, at Manarat Al Saadiyat, Abu Dhabi. The event featured over 40 universities from around the globe, allowing students to interact with university delegates and have their queries addressed. Overall, the GCC Exhibition was an exceptional opportunity for Sunrise English Private School students to gain valuable insights into their future educational endeavors.
