

I love UAE

My beautiful country
With beautiful cities,
Places and houses
And much much more.

It is friendly to all people
It is my favourite place to live in
For a great time
And much much more

Splendid festivals
Nothing like the ones you have been to
before
With dancing and singing
And much much more

They have beautiful dresses
An abaya for women and
Kandura for men
And much much more

Excellent schools
Both private and public
With activities
Competitions
And much much more

There are many beautiful buildings and
monuments

But the tallest in the world
Most popular building in the country is
The Burj Khalifa in the Dubai
But still dont worry
Because there are much much more

This country has a rich history behind it
Its founder is HH Sheikh Zayed Bin Sultan Al

Nahyan

It was declared as independent on 2nd
December

But the history does not end, this is just a
tiny detail

There is much much more

As you have read what I have written

You must wonder

Where this wonderful place is

It is UAE
